

Radio Strange About the band

The band

Radio Strange is a post-grunge punk rock band from Zurich, Switzerland, formed in summer 2020.

Guitar, Bass, Drum and vocals - it's as simple as that. Their music is loud, raw, distorted and honest. In other words - Rock'n'roll baby! :-)

After several Swiss and Canadian alternative radio stations played their debut single "Masters Of The Past", the three toured around Switzerland in summer / autumn 2021.

During this period, they self-recorded, produced, mixed and mastered their debut album called "Handmade Bastard" which dropped on February 2022. That truly is a handmade bastard :)

The album was very well received and drew attention in several online reviews, local newspapers and music blogs. It was played in Swiss national radio SRF3, followed by a national tour in autumn 2022.

The band, whose members all have family and children at home, is continuously working and released two more singles "Run Away" and "No Way in spring 2023 with a following small tour in 2023. And there is more to come - stay tuned!

Radio Strange Handmade Bastard

Released February 2, 2022

Rock is dead! Radio Strange resists this statement with their debut album "Handmade Bastard".

The post grunge trio from Zurich, Switzerland, started in summer of 2020 and deliberately renounces modern frills like autotune or digital synths etc.

Mistakes stay in! This is music that finally sounds human again and not clinical. Guitar, bass, drums and vocals - raw, loud, dirty and honest is the simple recipe.

Handmade Bastard processes the last two years, where the world was turning upside down, in twelve varied, melodic songs.

The songs sound like a mixture of 90s grunge, crossover and modern metal.

Composed, recorded, produced, mixed, mastered - "handmade" - by Radio Strange in Russikon and Uster, Zurich.

"Rock with a swiss heart" - Dominic Dillier, SRF3

"9 of 10 burning headphones. Predicate? Buy and listen terribly loud!" - Danny Frischknecht, rocknews.ch

"Explosive Rock'n'Roll from Switzerland" - Kevin Randy, Frontstage Magazin

"9 out of 10, I really loved Handmade Bastard." - Damian Sullivan, maximumvolumemusic.com

"One of my favourite discoveries this year" - Martina Dörner, Lets Talk about Music
